Objective and Summary

Jeremy hails from the border city of Laredo Texas, attending Texas A&M University soon after graduating from the United High School Engineering and Technology Magnet. Jeremy earned his degree in Computer Science, with a focus in Systems Engineering, and has an avid interest in .NET and web development. His current goals involve the attainment of a role in one of the aforementioned fields, to both bring value to that role and further his overall skill-set.

Education

Texas A&M University, College Station, TX - May 2015
B.S. Computer Science, Systems Engineering Track
Relevant Courses: Data Structures and Algorithms, Programming Studio, Distributed Objects Programming

Work Experience

IT Consultant
Sogeti USA
June, 2015 - April 2016

- Microsoft-technology oriented software developer, responsible for client-site projects in varying domains, platforms and technologies. Major accomplishments include a role as a Software Development Engineer in Test at Dell, as well as leading the Summer 2015 graduating class as the "Class President," elected by his fellow co-workers and peers.
