Objective and Summary

Jeremy originally hails from the border town of Laredo, Texas, thereafter attending Texas A&M University in College Station, where he earned his bachelor's degree in Computer Science with a concentration in Systems Engineering. He has an avid interest in building distributed, scalable, and performant back-end systems, with special attention paid in delivering clean, quality solutions, and evangelizing those same standards within his organization.

Work Experience

Software Development Engineer Senior Specialist Charles Schwab April 2019 - Present

- Responsible for the delivery of key financial technology applications and services supporting the Schwab Portfolio Performance Reporting initiative impacting millions and clients, utilizing .NET Core C#, WebAPI, and the NoSQL database Aerospike, in an Agile and Cloud based environment.
- In addition to the above, other responsibilities include application metric analysis and business intelligence augmentation via the utilization of Splunk machine data indexing and query tools, as well application performance profiling and benchmarking to ensure continued robustness.

Software Developer Advanced Solutions International January 2017 - March 2019

- Full-stack, .NET-focused software developer, specializing in C#, JavaScript, HTML5, and CSS3 based web-development, including back-end (Entity Framework, T-SQL) and REST-ful API (WebAPI) middle-ware technologies. The aforementioned takes place in an Agile, Scrum-based environment.
- Responsibilities also include quarterly product penetration-testing involving vulnerability scanning tools such as Arachni and Burp Suite, as well as database injection tools such as SQLMap.

Software Developer Dell April 2016 - January 2017

• Software Developer Engineer in Test, as part of the Dell Consumer Services "Responsive Platform" team. Responsible for automated test framework and suite creation for the whole of the application, utilizing C#, Selenium WebDriver, and SpecFlow, as well as monitoring and analysis using Splunk and Adobe Analytics.

Current Skillset

- Languages: Proficient in .NET C# (9.0) and JavaScript (ES5, ES6)
- Front-end Web Development: Proficiency with HTML5, CSS3, NPM dependency management, experience with the Angular framework and React library
- Back-end Web Development: Proficiency in .NET stacks involving ASP.NET WebAPI, Entity Framework and T-SQL, NoSQL data-store Aerospike, experience with JavaScript stacks involving Node.JS

Education

Texas A&M University, College Station, Texas - May 2015

B.S. Computer Science, Systems Engineering Track

Relevant Courses: Design and Analysis of Algorithms, Distributed Objects Programming, Networks and Distributed Programming
