Objective and Summary

Jeremy hails from the border city of Laredo Texas, attending Texas A&M University soon after graduating from the United High School Engineering and Technology Magnet. Jeremy earned his degree in Computer Science, with a focus in Systems Engineering, and has an avid interest in all things development, including .NET, web development, and InfoSec. His current goals involve the attainment of a role in one of the aforementioned fields, to both bring value to that role and further his overall skill-set.

Education

Texas A&M University, College Station, TX - May 2015
B.S. Computer Science, Systems Engineering Track
Relevant Courses: Data Structures and Algorithms, Programming Studio, Distributed Objects Programming, Reverse Engineering
